Dear Sirs,

I think that it is necessary to remedy the situation that has been brought on BeOS due to MS's strongarm tactics. I am part of a worldwide network that is working on getting the BeOS or equivalent back into the market place, but there is no hope of success if the following issues aren't addressed, for example: open Office file formats, Win32 APIs, make dual-boot options mandatory. Furtheron it must be possible to sell PCs with pre-installed BeOS.

Best regards

Dr. Hartmut Reh
